User Manual

2025

introduction

This manual will guide you through the app's features and functionalities to ensure you get the most out of your Inkquire experience.

In today's world, media has a significant impact on our daily lives. It is crucial to equip the younger generation with skills to critically evaluate and analyze the information around them. Inkquire provides an engaging, interactive platform to achieve this goal through a combination of games, quizzes, and storytelling.

key features

Level-Based Courses

Inkquire is structured into level-based courses tailored to the user's age and knowledge level. These courses provide a progressive learning experience:

- Beginner Levels: Introduce fundamental concepts of media literacy.
- Intermediate Levels: Dive deeper into critical analysis techniques.
- Advanced Levels: Challenge users with complex scenarios to hone their skills

Interactive Lessons

Each course consists of interactive lessons that combine:

- Educational Stories: Narratives designed to teach critical thinking through relatable examples.
- Challenging Quizzes: Multiple-choice and situational questions that test understanding and reinforce learning.

Educational Games

Games within Inkquire are designed to make learning fun while reinforcing key concepts. Examples include:

- Spot the Fake: Identify fake news or manipulated information.
- Media Detective: Solve puzzles by verifying sources and analyzing content.

how to use Inkquire

Register

Visit the Inkquire website and click on the Register button. Create an account by entering the required details, including the child's age to tailor content appropriately.

Choose a Course

After logging in, browse the available courses. Select the course that matches your child's level.

Engage with Lessons

Start each course by completing the lessons in order. Lessons include educational stories and quizzes.

Play Games

Access the games section to reinforce the learned concepts in a fun and interactive way.

Track Progress

Use the Progress Dashboard to monitor completed courses, quiz scores, and badges earned.

troublesho oting

Common Issues and Solutions:

1. **Can't Access Account**
   a. Ensure you're using the correct email and password.
   b. Click on Forgot Password if you need to reset it.
2. **Lessons Not Loading**
   a. Check your internet connection.
   b. Clear your browser's cache and try again.
3. **Progress Not Saving**
   a. Ensure you're logged into your account.
   b. Contact support if the issue persists.
